RUSSELLSTONE VOYAGE

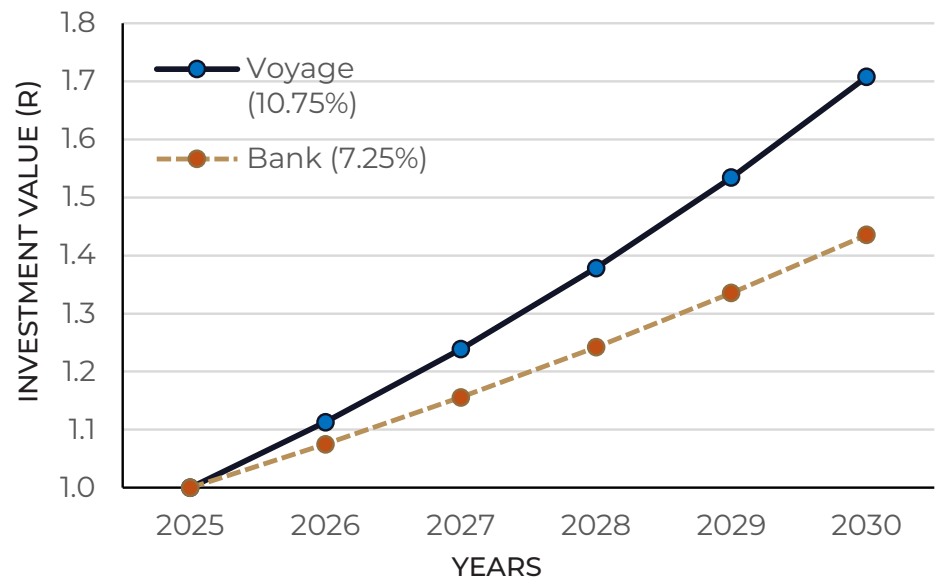

NOTE PROGRAM

Established in 2017, the fund gives investors access to high-yield, low-volatility opportunities by financing niche sectors like:

- Agriculture
- Food security
- Green projects within South Africa

Returns are structured as interest-bearing or capitalised.

TOTAL RETURNS

YOUR INVESTMENT, NAVIGATED WITH PURPOSE

At RussellStone Voyage, we believe every investment is a voyage - and success depends on the alignment of three key role-players:

1. The Captain - Direction and Execution

Brave, skilled, and willing to risk everything to reach new shores.

2. The Ship Owner - Structure and Support

Once a captain himself, now seasoned and strategic, investing in vessels and vision.

3. The Financier - Purpose and Profit

The visionary backer, whose capital fuels the journey and shares in the bounty.

When all three roles are aligned, the result is a smooth voyage — with reduced risk, clearer direction, and maximised returns.
